User Guide

Nokia 105 Dual SIM

NOKIA

For your safety

Read these simple guidelines. Not following them may be dangerous or against local laws and regulations.

SWITCH OFF IN RESTRICTED AREAS
Switch the device off when mobile phone use is not allowed or when it may cause interference or danger, for example, in aircraft, in hospitals or near medical equipment, fuel, chemicals, or blasting areas. Obey all instructions in restricted areas.

ROAD SAFETY COMES FIRST
Obey all local laws. Always keep your hands free to operate the vehicle while driving. Your first consideration while driving should be road safety.

INTERFERENCE
All wireless devices may be susceptible to interference, which could affect performance.

QUALIFIED SERVICE
Only qualified personnel may install or repair this product.

BATTERIES, CHARGERS, AND OTHER ACCESSORIES
Use only batteries, chargers, and other accessories approved by HMD Global for use with this device. Do not connect incompatible products.

KEEP YOUR DEVICE DRY
Your device is not water-resistant. Keep it dry.

PROTECT YOUR HEARING
To prevent possible hearing damage, do not listen at high volume levels for long periods. Exercise caution when holding your device near your ear while the loudspeaker is in use.
Get started

Get started with the basics, and have your phone up and running in no time.

Keys and parts

Explore the keys and parts of your new phone.

1   Earpiece
2   Selection keys
3   End/Power key
4   Microphone
5   Call key
6   Scroll key
7   Antenna area
8   Loudspeaker
9   Headset connector (3.5 mm)
10 Flashlight
11 Charger connector

Avoid touching the antenna area while the antenna is in use. Contact with antennas affects the communication quality and may reduce battery life due to higher power level during operation.

Do not connect to products that create an output signal, as this may damage the device. Do not connect any voltage source to the audio connector. If you connect an external device or headset, other than those approved for use with this device, to the audio connector, pay special attention to volume levels.

Parts of the device are magnetic. Metallic materials may be attracted to the device. Do not place credit cards or other magnetic storage media near the device, because info stored on them may be erased.

Some of the accessories mentioned in this user guide, such as charger, headset, or data cable, may be sold separately.

> **Note:** You can set the phone to ask for a security code. The pre-set code is 12345, but you can change it to protect your privacy and personal data. Note, however, that when you change the code, you need to remember the new code, as HMD Global is not able to open or bypass it.

## Insert the SIM cards and battery

Learn how to insert the battery and SIM cards.

> **Important:** This device is designed to be used with a standard SIM card (see figure) only. Use of incompatible SIM cards may damage the card or the device, and may corrupt data stored on the card. Please consult your mobile operator for the use of a SIM card that has a mini-UICC cutout.
1. Press the back cover with your thumb, carefully lift the bottom edge of the back cover with your fingers, and remove the cover.

2. If the battery is in the phone, lift it out.
3. Slide the SIM in with the contact area face down.

4. To insert a second SIM, slide the SIM in with the contact area face down.

Both SIM cards are available at the same time when the device is not being used, but while one SIM card is active, for example, making a call, the other may be unavailable.

5. Line up the battery contacts, and put the battery in.
6. Replace the back cover.

Remove the SIM cards
Open the back cover, remove the battery, press the release spring, and slide the SIM cards out.
Switch your phone on
Press and hold the power key.

Charge the battery

Your battery has been partially charged at the factory, but you may need to recharge it before you can use your phone.

1. Plug the charger into a wall outlet.
2. Connect the charger to the phone. When done, unplug the charger from the phone, then from the wall outlet.

If the battery is completely discharged, it may take several minutes before the charging indicator is displayed.

Lock or unlock the keys

To avoid accidentally pressing the keys, use keypad lock.

1. Quickly press ⓪.
2. Select **Lock**.

Unlock the keypad
Press ⓪, and select **Unlock**.

Basics

Learn how to get the most out of your new phone.

Set which SIM card to use

If you have 2 SIM cards in your phone, you can select which one you want to use.

1. Select **Menu** > **Settings** > **Dual SIM settings**.
2. To choose which SIM to use for calls, select **Default SIM for calls** and the SIM.
3. To choose which SIM to use for messages, select **Default SIM for msgs** and the SIM.

Explore your phone

Explore the views and features of your phone.

**See the apps and features of your phone**

Select **Menu**.
Go to an app or feature
Press the scroll key up, down, left, or right.

Open an app or select a feature
Select **Select**.

Go back to the previous view
Select **Back**.

Go back to the home screen
Press the end key.
Switch the flashlight on
On the home screen, quickly scroll up twice.

© 2016 HMD Global. All rights reserved.

7
To switch the flashlight off, scroll up once.

Do not shine the light in anyone's eyes.

Change the volume

Trouble hearing your phone ringing in noisy environments, or calls too loud? You can change the volume to your liking.

Scroll up or down to change the volume during a call or when listening to the radio.
Change the wallpaper

You can change the background of your home screen to your liking.

1. Select **Menu** > **Settings** > **Display settings** > **Wallpaper**.
2. Select a wallpaper.

Set the ringtone

Set a ringtone for your phone. You can set a different ringtone for each SIM card.

1. Select **Menu** > **Settings** > **Tone settings**.
2. Select **Ringing tone**. If needed, select a SIM card.
3. Pick a ringtone, and select **OK**.

Listen to the radio

Enjoy your favourite FM radio stations on the go.

1. Connect a compatible headset (it acts as an antenna), and select **Menu** > **Radio**.
2. To go to a new channel, scroll left or right.
3. To close the radio, select **Stop**.

Write text

Writing with the keypad is easy and fun.

Press a key repeatedly until the letter is shown.

Type in a space
Press **0**.

Type in a special character or punctuation mark
Press *****.

Switch between character cases
Press **#** repeatedly.

Type in a number
Press and hold a number key.

Use predictive text

To speed up your writing, your phone can guess what you are starting to write. Predictive text is based on a built-in dictionary. This feature is not available for all languages.

1. Select **Opt.** > **Dictionary** and the language.
2. Start writing a word. When the word you want is shown, press **0**.

Change a word
Press ***** repeatedly until the word you want is shown.

Add a new word to the dictionary
If the word you want isn't in the dictionary, write the word, press ***** repeatedly to skip all unwanted words, select **Spell**, and write the word.

Switch between predictive and traditional text
Press **#** repeatedly.

Switch predictive text off
Select **Opt.** > **Dictionary** > **Dictionary off**.

People & messaging

Contact your friends and family using your phone.

Make a call

Learn how to make a call with your new phone.

1. Type in the phone number.

To type in the + character, used for international calls, press ***** twice.

2. Press ⌢. If asked, select which SIM to use.
3. To end the call, press ⓪.

Answer a call
Press ⌢.

Save a name and phone number

Save and organise your friends' phone numbers. Or why not spice up your contacts list by assigning different tones for your contacts?

1. Select **Menu** > **Contacts** > **Add contact**.
2. Select where to save the contact.
3. Write the name, and type in the number.

⭐ **Tip:** To save a phone number in the dialler, type in the number, and select **Opt.** > **Save**.

Send and receive messages

Keep in touch with your friends and family through text messages.

1. Select **Menu** > **Messages**.
2. Select **Create message**, and write your message.

⭐ **Tip:** To insert special characters, such as a smiley or symbol, select **Opt.** > **Insert options**.

3. Select **Opt.** > **Send**. If asked, select which SIM to use. Type in a phone number, or select **Search** and a recipient from your contacts list.

⭐ **Tip:** You can also press ⌢ to send the message.

You can send text messages that are longer than the character limit for a single message. Longer messages are sent as two or more messages. Your service provider may charge accordingly. Characters with accents, other marks, or some language options, take more space, and limit the number of characters that can be sent in a single message.

Read a message
On the lock screen, select **Read**.

⭐ **Tip:** To read the message later, select **Menu** > **Messages** > **Inbox**.

Office

Learn how to use the alarm clock to keep yourself organised.

Set an alarm

Use your phone as an alarm clock.

1. Select **Menu** > **Clock** > **Set alarms**.
2. Select an alarm.

⭐ **Tip:** You can set up to 5 different alarms.

3. To set the hour, scroll up or down. To set the minutes, scroll right and then up or down.
4. Select **OK**.

Add a calendar reminder

Need to remember an event? Add it to your calendar.

1. Select **Menu** > **Extras** > **Calendar**.
2. Select a date and **Opt.** > **Add reminder**.
3. Edit the reminder text, and select **OK**.
4. If you want to be reminded by an alarm, select **Alarm on**, and set the alarm time. Otherwise, select **Alarm off**.

Delete a calendar entry
Go to the date of the entry, and select it. Then select **View today**, the reminder you want to delete, and **Opt.** > **Delete**.

Change the time and date

You can set your phone clock manually.

1. Select **Menu** > **Settings** > **Time settings**.
2. To set the time, select **Clock** > **Set the time**, use the scroll key to set the time, and select **OK**.
3. To set the date, select **Date setting**, use the scroll key to set the date, and select **OK**.

Phone management

Learn how to manage the personal data and content in your phone.

Remove private content from your phone

If you buy a new phone, or otherwise want to dispose of or recycle your phone, here's how you can remove your personal info and content.

When removing private content from your phone, pay attention to whether you are removing content from the phone memory or the SIM card.

1. To remove messages, select **Menu** > **Messages** > **Delete messages**. Go to the folder you want to empty, and select **Delete all** or **All read**. To remove all messages from your phone, empty all the folders separately.
2. To remove contacts, select **Menu** > **Contacts** > **Delete** > **Delete all** and the location.
3. To remove call info, select **Menu** > **Call register** > **Delete recent call lists** > **All**.
4. Check that all your personal content has been removed.

Restore the original settings
To reset your phone to its original settings and to remove all your data, on the home screen, type in ***#7370#**.

Access codes

Learn what the different codes on your phone are for.

PIN or PIN2 code (4-8 digits)	These protect your SIM card against unauthorised use or are required to access some features.
	You can set your phone to ask for the PIN code when you switch it on.
	If you forget the codes or they aren't supplied with your card, contact your network service provider.
	If you type in the code incorrectly 3 times in a row, you need to unblock the code with the PUK or PUK2 code.
PUK or PUK2	These are required to unblock a PIN or PIN2 code.
	If the codes are not supplied with your SIM card, contact your network service provider.
Security code (lock code, password)	This helps you protect your phone against unauthorised use.

You can set your phone to ask for the lock code that you define. The default lock code is 12345.

Keep the code secret and in a safe place, separate from your phone.

If you forget the code and your phone is locked, your phone will require service. Additional charges may apply, and all the personal data on your phone may be deleted.

For more info, contact the nearest care point for your phone, or your phone dealer.

| IMEI | This is used to identify phones in the network. You may also need to give the number to your care point services or phone dealer. |

To view your IMEI number, dial ***#06#**.

Product and safety info

Network services and costs

You can only use your device on the GSM 900, 1800 MHz networks. You need a subscription with a service provider.

You may also need to subscribe to some features.

Emergency calls

❗ **Important:** Connections in all conditions cannot be guaranteed. Never rely solely on any wireless phone for essential communications like medical emergencies.

Before making the call:

- Switch the phone on.
- If the phone keys are locked, unlock them.
- Move to a place with adequate signal strength.

1. Press the end key repeatedly, until the home screen is shown.
2. Type in the official emergency number for your present location. Emergency call numbers vary by location.
3. Press the call key.
4. Give the necessary info as accurately as possible. Do not end the call until given permission to do so.

You may also need to do the following:

- Put a SIM card in the phone.
- If your phone asks for a PIN code, type in the official emergency number for your present location, and press the call key.
- Switch the call restrictions off in your phone, such as call barring, fixed dialling, or closed user group.
- To make an emergency call during the first start-up, select **Opt.** > **Make emerg. call**.

Take care of your device

Handle your device, battery, charger and accessories with care. The following suggestions help you keep your device operational.

- Keep the device dry. Precipitation, humidity, and all types of liquids or moisture can contain minerals that corrode electronic circuits. If your device gets wet, remove the battery, and let the device dry.
- Do not use or store the device in dusty or dirty areas.
- Do not store the device in high temperatures. High temperatures may damage the device or battery.
- Do not store the device in cold temperatures. When the device warms to its normal temperature, moisture can form inside the device and damage it.
- Do not open the device other than as instructed in the user guide.
- Unauthorised modifications may damage the device and violate regulations governing radio devices.
- Do not drop, knock, or shake the device or the battery. Rough handling can break it.
- Only use a soft, clean, dry cloth to clean the surface of the device.
- Do not paint the device. Paint can prevent proper operation.
- For optimal performance, switch the device off and remove the battery from time to time.
- Keep the device away from magnets or magnetic fields.
- To keep your important data safe, store it in at least two separate places, such as your device, memory card, or computer, or write down important info.

Recycle

Always return your used electronic products, batteries, and packaging materials to dedicated collection points. This way you help prevent uncontrolled waste disposal and promote the recycling of materials. All materials of the device can be recovered as materials and energy.

Battery and charger info

Use your device only with an original BL-5CB rechargeable battery.

Charge your device with AC-18 charger. Charger plug type may vary.

HMD Global may make additional battery or charger models available for this device.

❗ **Important:** Talk and standby times are estimates only. Actual times are affected by, for example, network conditions, device settings, features being used, battery condition, and temperature.

Battery and charger safety

Always switch the device off and unplug the charger before removing the battery. To unplug a charger or an accessory, hold and pull the plug, not the cord.

When your charger is not in use, unplug it. If left unused, a fully charged battery will lose its charge over time.

Always keep the battery between 15°C and 25°C (59°F and 77°F) for optimal performance. Extreme temperatures reduce the capacity and lifetime of the battery. A device with a hot or cold battery may not work temporarily.

Accidental short-circuiting can happen when a metallic object touches the metal strips on the battery. This may damage the battery or the other object.

Do not dispose of batteries in a fire as they may explode. Obey local regulations. Recycle when possible. Do not dispose as household waste.

Do not dismantle, cut, crush, bend, puncture, or otherwise damage the battery in any way. If a battery leaks, do not let liquid touch skin or eyes. If this happens, immediately flush the affected areas with water, or seek medical help. Do not modify, attempt to insert foreign objects into the battery, or immerse or expose it to water or other liquids. Batteries may explode if damaged.

Use the battery and charger for their intended purposes only. Improper use, or use of unapproved or incompatible batteries or chargers may present a risk of fire, explosion, or other hazard, and may invalidate any approval or warranty. If you believe the battery or charger is damaged, take it to a service centre or your phone dealer before continuing to use it. Never use a damaged battery or charger. Only use the charger indoors. Do not charge your device during a lightning storm.

Small children

Your device and its accessories are not toys. They may contain small parts. Keep them out of the reach of small children.

Medical devices

Operation of radio transmitting equipment, including wireless phones, may interfere with inadequately shielded medical devices' function. Consult a physician or the medical device's manufacturer to determine if it is adequately shielded from external radio energy.

Implanted medical devices

To avoid potential interference, manufacturers of implanted medical devices recommend a minimum separation of 15.3 centimetres (6 inches) between a wireless device and the medical device. Persons who have such devices should:

- Always keep the wireless device more than 15.3 centimetres (6 inches) from the medical device.
- Not carry the wireless device in a breast pocket.
- Hold the wireless device to the ear opposite the medical device.
- Switch the wireless device off if there is any reason to suspect that interference is taking place.
- Follow the manufacturer directions for the implanted medical device.

If you have any questions about using your wireless device with an implanted medical device, consult your health care provider.

Hearing

⚠️ **Warning:** When you use the headset, your ability to hear outside sounds may be affected. Do not use the headset where it can endanger your safety.

Some wireless devices may interfere with some hearing aids.

Protect your device from harmful content

Your device may be exposed to viruses and other harmful content. Take the following precautions:

- Be cautious when opening messages. They may contain malicious software or otherwise be harmful to your device or computer.
- Be cautious when accepting connectivity requests, browsing the internet, or downloading content.
- Only install and use services and software from sources that you trust and that offer adequate security and protection.
- Install antivirus and other security software on your device and any connected computer. Only use one antivirus app at a time. Using more may affect performance and operation of the device and/or computer.
- If you access preinstalled bookmarks and links to third party internet sites, take the appropriate precautions. HMD Global does not endorse or assume liability for such sites.

Vehicles

Radio signals may affect improperly installed or inadequately shielded electronic systems in vehicles. For more info, check with the manufacturer of your vehicle or its equipment.

Only qualified personnel should install the device in a vehicle. Faulty installation may be dangerous and invalidate your warranty. Check regularly that all wireless device equipment in your vehicle is mounted and operating properly. Do not store or carry flammable or explosive materials in the same compartment as the device, its parts, or accessories. Do not place your device or accessories in the air bag deployment area.

Potentially explosive environments

Switch your device off in potentially explosive environments, such as near petrol pumps. Sparks may cause an explosion or fire resulting in injury or death. Note restrictions in areas with fuel; chemical plants; or where blasting operations are in progress. Areas with a potentially explosive environment may not be clearly marked. These usually are areas where you are advised to switch your engine off, below deck on boats, chemical transfer or storage facilities, and where the air contains chemicals or particles. Check with the manufacturers of vehicles using liquefied petroleum gas (such as propane or butane) if this device can be safely used in their vicinity.

Certification information (SAR)

This mobile device meets guidelines for exposure to radio waves.

For information on SAR, see the printed user guide.

Original accessories

For availability of approved accessories, check with your dealer.

An extensive range of accessories is available for your device.

Practical rules about accessories

- Keep all accessories out of the reach of small children.
- When you disconnect the power cord of any accessory, hold and pull the plug, not the cord.
- Check regularly that accessories installed in a vehicle are mounted and are operating properly.
- Installation of any complex car accessories must be made by qualified personnel only.

Battery

Type: BL-5CB

Talk time:

Up to 15 hours.

Standby:

Up to 25 days.

Important: Battery talk and standby times are estimates only. Actual battery talk and standby times depend on SIM cards, features used, battery age and condition, temperatures to which the battery is exposed, network conditions, and many other factors, and may be significantly shorter than those specified above. Ringtones, hands-free call handling, and other features consume the battery. The amount of time a device is used for calls affects its standby time, and the amount of time that the device is switched on and in standby mode affects its talk time.
